## NASHIRA

Indoor air quality,  
quality of life

# Innovation that enhances well-being

## High-efficiency Heat Recovery Unit

### Patented FLEXY System for increased flexibility

- ✓ Position the nozzles without the need to disassemble the equipment
- ✓ Airtight solution
- ✓ Nozzles designed to minimize pressure loss and noise levels

### Adaptable unit for enhanced installation

- ✓ Airflow reversibility
- ✓ Proportional control with AI

# We improve air quality

## Healthy spaces

### Wide range of filters

- Pollen filter (G4)
- Particle filter (M5)
- Bacteria filter (F7)
- Virus filter (F9)
- Activated carbon filter

# We make your home the perfect space

With Connectair®, enjoy a **smart home and breathe easy by having control of indoor air quality in the palm of your hand.**

With the patented FLEXY system, the nozzles change position, ensuring tightness without the need to disassemble the equipment.

Discover everything about NASHIRA

# High efficiency, low emissions

## Designed for the future

**Ultra-Low** Power Energy Recovery System.  
EC motors that **ensure a constant flow.**  
In addition to its **long durability,**

**99,9%** of the equipment is recyclable

Low noise level

Automatic and manual bypass

High-performance plate exchanger

Integrated humidity probes for automatic operation

Built-in multifunction control panel

MODBUS communication and 0-10V input

### 2 versions, 4 models

- SENSIBLE\***  
NASHIRA 200 & NASHIRA 150
- ENTALPICAL\***  
NASHIRA 200 E & NASHIRA 150 E

\*Dimensions 1000 x 600 x 210 mm
